If bicycle commuting is new to you, this is a great program to get you started. Commit to commute **ONCE**, for the fun and health of it. **Bike to Work Day is May 20**. For seasoned commuters, this is your chance to stand up and be counted, by riding to work as often as you can during the month. Challenge yourself and challenge your workmates to be a part of the solution. Commute **FIVE** times, or more, (round-trips) during the 30-day period and be eligible for great prizes.
